Rasmus Rejsebureau AS

Shortcut to Greenland

Greenland Travel is a perfect partner for traveling Greenland.
One contact is all you need. We are with you the whole way
– from when you first contact us until your guests leave Greenland.
We put all the small pieces together to form a coherent whole and
from start to finish we guarantee quality, service and safety.

Greenland's number one travel agency

Greenland Travel is the largest travel agency in the world specializing in Greenland. It is a Greenlandic owned, modern company. It was set up in 1985, and is now owned by Air Greenland. We have an annual turnover of DKK 250 million and around 50 employees, divided between offices in the three towns of Nuuk, Sisimiut and Ilulissat in Greenland and in Copenhagen in Denmark. We also have a large team of guides.

This is our aim

Greenland Travel has focused its initiatives on two core areas:

- We aim to maintain and develop our market position and continue to be the biggest and best on the market for travel to and from Greenland.
- Greenland Travel works in a large international context. We want to increase our activity to more foreign markets in the future.

This is our service

There are lots of reasons to choose Greenland Travel as a partner:

20 years' experience

Greenland Travel has existed since 1985 and has through the years built up a solid position as the largest tour operator and travel agency in the world specializing in Greenland. We combine the many years' of experience within the company with the requirements of the modern tourist. Competence development for staff, product development and quality assurance have high priority.

Faceted LEISURE programme

Greenland Travel offers the widest and most varied range of leisure products to Greenland. We have already produced over 40 different programmes to all parts of this enormous country, both in summer and winter. If you have any particular requirements, we can put together programmes to suit your customers.

Tailored MICE products

We have intensified our initiatives in the MICE segment. The settings for spectacular MICE programmes are unique, and the facilities are good. Through our many years' experience of meetings, conferences and incentives we know all about the high level of quality and professionalism that modern meetings organisers require. Almost anything is possible, and we can tailor a programme to suit your customers perfectly.

Cruise service

From 1 January 2005 Greenland Travel will be ready with a new service concept for cruisers which put in to the coasts of Greenland. The concept covers both ships with only a few ports of call on their way to other destinations and ships which follow a regular schedule along the coasts of Greenland. We offer help with transfers, activities both on board and on land, excursions etc.

A wide network

Greenland Travel works with all the players in tourism in Greenland. We have an overview of all the facilities available, and because of our many years' experience of planning and organizing

travels to, in and from Greenland, we are a cornerstone in a large network of suppliers of accommodation, transport, excursions and other aspects. We have taken a step further and engaged relations with excursion organizers and hotels at some of the key destinations in Greenland: Narsarsuaq, Qaqortoq, Sisimiut, Kangerlussuaq and Ilulissat, to offer you the most efficient, stable and professional service.

New incoming function

From 1 January 2005 Greenland Travel will be offering excursions in Greenland. This will be organized through three incoming offices in Sisimiut, Ilulissat and Nuuk and in close collaboration between the staff, local guides and tourist players. In this way we will raise the quality and service and ensure an up-to-date and varied range of excursions and adventures.

A taste of paradise

Greenland Travel offers both winter and summer product to Greenland. Are you looking for dog sledge tours, northern light tours or just winter adventure we can offer a variety of tours. Are you looking for summer tours - for example under the midnight sun - we also have a wide range of different tours all based on good hotels. Or are you looking for hiking holidays with or without guide this is yet another option through Greenland Travel.

The variety of products we offer cover all seasons and all group sizes. At Greenland Travel we arrange everything from adventurous dog sledding, boat trips amongst the icebergs in the Disko bay, sightseeing in churches, museums and historical sites,

picnic with Greenlandic specialities, helicopter flights to the Ice Cap, to shorter hiking trips in beautiful scenery. Common for all excursions are a deep respect for the beautiful scenery and the charming culture.

Team of 45 highly qualified guides

Many of our guides have been associated with Greenland Travel for ten or twenty years. The guides are divided into two main groups: destination guides and tour leaders. We have stationed destination guides in the larger towns: Kangerlussuaq, Sisimiut, Ilulissat and Nuuk and to some extent in Narsarsuaq. All guides are trained internally. The "old" guides are involved in training new ones and so quality and continuity are assured. All of the guides share a love of Greenland and a great deal of expertise. Many of them have special knowledge of history, botany, geology, glaciology, mythology or other cultural history.

Iceland and the Faroes

Through the comprehensive network and the large expertise of arctic conditions within the company, Greenland Travel has expanded its area of work to include Iceland and the Faroes. In recent years we have successfully arranged journeys to Greenland's two North Atlantic neighbouring countries.

We do not compromise

The arctic conditions place large demands on us as travel organizers. We never compromise on quality or safety, but continuously pick up the pieces of the puzzle and put them together to make a journey to Greenland perfect.
